

Assistance by phone

You can easily search for homes via our website. If you are over 65, you can get phone assistance throughout the process: from registration to selecting a payment method, submitting notices of interest and accepting or declining an apartment.

Registration

We can help you create an email address and register for the housing queue.

Queue fee

We can help you choose the payment method that suits you best and provide guidance on how to complete the payment..

Notice of interest

We can help you submit a notice of interest for the accommodation(s) you are interested in.

Get help using an representative

By providing a representative's email address, he or she receives a copy of all emails we send to you.

Are you looking for a senior apartment?

Senior apartments are published for eight days on our website. If you call us once a week on the same day, you will not miss the opportunity to apply for available apartments.

Viewing

A viewing of a senior apartment takes place 5 days after the listing has been unpublished from our website. After the viewing, you need to respond whether you are still interested in the apartment or not.

2 days to respond

If you are first in the queue for a home, you have two non-holiday business days to accept or decline the apartment.
